Just Aircons cc was established in 2002 and has grown into 1 of the largest automotive airconditioning remanufactures in the whole of South Africa, we have since build up a strong client base and a solid reputation distinguished by our superb quality products and competitive pricing structure. Though Just Aircons cc main line of business is remanufacturing of automotive airconditioning compressors, we still carry a wide range of genuine brand new aircon compressors and replacement condensers, receiver driers, expansion valves and other automotive airconditioning products to cater for all our distribution and Just Aircons cc approved fitment centres countrywide.

Just Aircons has a large and comprehensive stock range of automotive air-conditioning compressors and aircon parts. All well know major brands of compressors such as Seiko Seiki, Sanden, Nippon Denso, Harrison, Zexel, Delco, Calsonic, Mitsubishi and Panasonic are stocked.

Compressors are dispatched daily to all areas of South Africa and neighbouring countries, either through our own vehicle delivery system that delivers twice daily to Johannesburg, Pretoria, Eastrand and Westrand sections or through our selected couriers, or your choice of courier if you have your own account.

We offer our customers professional customer care and service. Our highly trained friendly staff with years of experience is always ready to assist you with all of your inquiries.
